FOREWORD

In this eighth edition of the Castletonian, the staff attempts to show the progress made in the Castlewood school. Johnson Brothers of Abingdon, Va., have completed the new elementary school and it is now in use. Committees are making plans for additions to the present high school building and to the new elementary school.

The twelve year school system is now in its second year of operation. There will be no junior class next year, and 1960 will not have a graduating class.

The curriculum for 1957-58 includes two new courses — French and World Geography.

Castlewood District Erects New Elementary School

This picture of the elementary school was taken in January, 1958 before the building was completed.

Johnson Brothers Construction Company of Abingdon, Va., built this new elementary school which is located south of Castlewood High School. The building cost approximately $277,000. It has 14 classrooms, a library, a principal's suite, and numerous storage and utility rooms. The students in grades one through five, who had been attending classes in temporary buildings at Temple Hill, moved into this new school in March, 1958.

The erection of this new building marks another step forward in the progress of Russell County schools. Plans are being made to add six class rooms and a cafeteria to this building. Also an auditorium and a band room are to be added to the present high school building. The voters in the Castlewood District approved the sale of bonds to provide money for this purpose in an election in June, 1957.

Castlewood High School students welcomed a newly organized football team at the beginning of the 1957-58 school year.

During the summer and fall of 1957, an athletics committee, headed by Mrs. Trinkle Phillips, acquired money for the uniforms and equipment from interested patrons and friends of the school. The Dante-St. Paul Lions Club also contributed a large sum of money.

The team consisted of 21 fine students who saw their first football action against Rural Retreat Sept. 13, 1957.

Since this was their first year, the team made a good showing.

UNITED MINE WORKERS OF AMERICA

LOCAL UNION NO. 7950

PREAMBLE OF OUR CONSTITUTION

There is no truth more obvious than that without coal there could not have been such marvelous social and industrial progress as marks present day civilization.

Believing that those whose lot it is to toil within the earth's recesses surrounded by peculiar dangers and deprived of sunlight and pure air, producing the commodity which makes possible the world's progress, are entitled to protection and an equitable share of the fruits of their labor, we have formed the "United Mine Workers of America" for the purpose of establishing, by lawful means, the principles embraced in the body of our Constitution.

The officers and members of Local 7950, United Mine Workers of America wish to commend the faculty of Castlewood High School for the outstanding educational training of the future citizens served by the Castlewood High School.
